DID YOU KNOW?

The College Entrance Examination Board reports that students of the arts, whether music, drama, visual or other, consistently outscore non-arts students on both verbal and math portions of the SAT exams. The longer that art is studied, the reports show, the higher the overall SAT scores. Other studies have uncovered similar findings. For instance, test scores in reading, writing, and vocabulary doubled at one Los Angeles school after three years of an arts education pilot program; the school now has the highest scores in its district (taken from *Port Folio Magazine*, April 18, 1995).

KIDS ART courses and activities are offered for children up to 17 years of age. Please register in advance, no later than 1 week before the first day of class. Participants provide their own art supplies unless otherwise stated; for more information about registration, sites, or supplies, please call the Visual Arts Center at 441-1227.
